Swanson's Triumph Greatest In Virginia

Majority Now Looks Like 60,000 or 75,000, Double That Given Any Candidate—Davis Has Not Carried District, Losing His Own Richmond Probably in Davis Column.

(Special To The Bee.)

RICHMOND, VA., August 2.—Senator Swanson's majority will run anywhere from 60,000 to 75,000, nearly double that before given any candidate in the State for any position.

Davis has not carried a solitary district, losing his own by more than 8,000. He has not carried more than six counties, it is believed, and at noon he has carried just two counties, Loudon and Richmond. He carried one ward in Richmond, which gave Swanson 653 majority. In no city or county has the Davis vote manifested itself. The size of the majority of the vote cast makes the defeat of Davis the more impressive.

DAVIS MAY GET 100 VOTES IN FRANKLIN.

BOCKY MOUNT, Va., Aug. 2.—Returns from 16 precincts from Franklin County give Senator Swanson over 1,000 Majority.

His majority will reach over 1,200 when all returns come in. Rocky Mount precinct gave Swanson 303 majority.

One hundred and twenty-nine votes were cast at Snowcreek precinct and all were for Davis.

Boone Mill precinct cast 60 votes and all were for Swanson.

Davis will receive about 100 votes in the county.

PITTSYLVANIA FIGURES COMPLETE.

CHATHAM, Aug. 2.—Pittsylvania county complete gives Swanson a majority of 2,026 in yesterday's primary. Swanson polled 2,374 and Davis 348. The official count will be made tomorrow.

Sabbath Ban On Ice Cream Sale

Police Court Justice In
Newport News Decides
Against a Defendant In
Eating Houses Only.

NEWPORT NEWS, Aug. 2.—Milk and cream cannot be sold in news stands and drug stores under the Sunday closing law on the Sabbath day. It was decided this morning by Police Justice John R. Locke.

They may be sold in regularly licensed eating houses.

He based his decision on the decision of Judge T. J. Barnham, in Corporation court on June 17, when the judge affirmed the action of the police justice in finding guilty ones who opened their places of business for the purpose of selling cream and milk.

In this decision, Judge Barnham said the man had broken the law because there is no reasonable necessity for selling ice cream in the city anywhere but in regular eating houses.

Judge Locke at the time understood that he meant it was unlawful to sell ice cream and milk in drug stores and news stands, they not being regular licensed eating houses.

He had been holding that unlawful.

However, until today, no case was brought before him wherein he could announce his change of attitude, brought about by the decision of the upper court.

When Judge Barnham announced this decision in June, the city manager said that in his opinion the decision of the police justice was unchanged; that ice cream and milk could be sold in drug stores and news stands. Hence, he would not instruct his police officers to make any arrests of druggists and news dealers who handled the milk products on the Sabbath.

But yesterday Officer Harvey Miller arrested S. Lambros, who operated two places of business on Washington Avenue. Before one place he was selling snowball for five cents apiece, and in another he was selling ice cream and milk. His business in the opinion of the officer was so complex that he thought the matter ought to be brought before the police justice.

It turned out before the justice that Lambros was a news dealer, and that he was selling ice cream and milk at his news stand. That was the justice's opportunity to announce the new interpretation of the law.

When he told Lambros that he couldn't sell ice cream and milk at his news stand the native of Greece let fly with a plausiblement remark. It cost him \$5 for contempt. The justice proceeded to notify him that while in this country he can abide by her laws or go back where he came from. Lambros presented papers to show himself a naturalized American. He meant to obey the laws he said. He was just startled. He was not fined, it being a test case. Moreover, if he had a regularly licensed eating house, he could sell the milk and ice cream on Sunday said the justice. He can not sell them in connection with his news stand.

L. G. Thom, city manager, when asked whether he will instruct his officers to arrest all druggists and news dealers who hereafter sell milk and cream on Sunday, stated that he has nothing to say until he comes with Justice Locke.

Rep. Padgett Dies
At Washington Home

(By The Associated Press.)

WASHINGTON, Aug. 2.—Representative Samuel P. Padgett, of Tennessee, died early today at his home here.

87-31-31-

Miss Peacock To Reconstitute Damage Suit

Miss Gertrude Peacock, who some months ago instituted a breach of promise action against Watkins R. Hunt of South Boston, asking for \$4,000 damages, passed through here yesterday on her way to New York, where she intends to remain for some time. She stated that she had temporarily withdrawn her action from the Halifax court but that she intends to reconstitute her suit in Richmond, where she declares certain actions took place on which a suit can be promised.

Withdrawal of her suit, which was scheduled to come up on Friday at Halifax, was due, according to her statement, to a demand on the part of attorneys representing her for counsel fees which she could not meet.

Miss Peacock while here told of being arrested in South Boston recently on a charge of disorderly conduct and of being twice arrested and required to give peace bonds of \$6,000. Monday, she stated, she was arraigned in the South Boston police court before Mayor J. B. Wilbourn, where the charge was aired before a large crowd of people. Miss Peacock asserted that she had no counsel but that she had seized the opportunity to tell her story to the court "from the beginning to the end," this consuming 30 minutes. She stated that during the course of the trial she accused Commonwealth Attorney J. S. Easely of being a "liar," for which she was fined \$25 for contempt of court. She declared that she was not fined \$25 for contempt of court. She declared that she was not fined for the charge in which she was arrested and that she did not pay the assessment for contempt of court. Miss Peacock stated that her remark to the commonwealth's attorney was caused by his

reference to her in a defamatory way which she resented.

Miss Peacock said that she did not anticipate returning to South Boston, where she has been for some time associated with a moving picture theater, where she played the piano.

Fifth District Gives Swanson Handsome Vote

The Fifth congressional district yesterday rallied handily to the candidacy of United States Senator Claude A. Swanson in his campaign to succeed himself, giving him a majority over ex-Governor Davis, who aspired to succeed him of well over 10,000 figures based on complete returns in some cases and partial returns and careful estimation in the more distant and less accessible counties. This is the district which Mr. Swanson represents in the House for ten years prior to his election to the governorship in 1905 and his assumption of that office February 1st, 1906.

By a curious coincidence this magnificent endorsement by his own people, the constituency he so long represented, came precisely on the tenth anniversary of his appointment to the Senate to succeed the late John W. Daniel, made by then Governor Mann on August 1st, 1916. His nomination will be confirmed at the general election in November, as he will begin his third full term in the Senate on March 4th, 1922. He had served seven months of Senator Daniel's unexpired term and was then reappointed until the General Assembly, which then chose senators, assembled.

Accurate returns from this city, fully complete figures based on returns and estimates on the unreported precincts in Pittsylvania (his home county), and from Halifax, Goochland, Charlotte and Henrico complete, and with Patrick, Franklin, Carroll and Grayson counties estimated on the basis of counts and reports, it now appears that the Fifth district has given its distinguished son a majority of slightly more than 10,000. The aggregate may exceed that total when the full vote has been reported and canvassed. These Swanson majorities in the district are either exact or carefully approximated:

Danville	1,582
Pittsylvania	2,000
Henry	625
Charlotte	325
Halifax	1,600
Patrick	1,000
Franklin	1,200
Carroll-Grayson	1,500

Total majority 10,258

These figures are believed to be conservative, practically hit only uncertainty about them being the aggregate vote polled in Carroll and Grayson counties. Franklin county is estimated, but the estimate is based on definite reports of men just from the district who have made a careful canvass. Halifax is predicting a majority in excess of the figures here given, while in the other counties the vote may exceed the figures in the table above.

Altogether, the vote is a remarkable endorsement for Mr. Swanson more especially when it is recalled that he remained at his place in the Senate throughout the canvass and did not even make a tour over his old congressional district and no speech therein. It is, therefore, a spontaneous tribute to him and his service and as much as is regarded by his friends as one of which he may well be proud.

On the Ninth district, with its much larger vote will exceed that given in the senator in the "Fighting Fifth."

—Miss Louise Geoghegan has returned from Greensboro to spend August with her parents.

—Miss Gladys Jackson left this morning for Stuart, where she will spend several days visiting friends.

SWANSON CARRIES MARY.
MARTINSVILLE, Va., Aug. 1.—Swanson's majority in Mary county is about 800.

The Majority For Senator Swanson To Exceed 60,000

RICHMOND, Va., August 1.—(Associated Press)—Practically complete returns from three-fourths of the 100 counties in Virginia and scattering returns from the others received by the Times Dispatch give Senator Claude A. Swanson, of Pittsylvania county, 67,808 votes and Westmoreland Deal 1,000, of Loudoun county, 12,841 in the contest for United States senator. Swanson's majority is confidently expected to go beyond the 60,000 mark by those who know the political situation in the state.

Mr. Swanson has carried all of the ten congressional districts in the state. He has registered majorities in all of the cities and probably in five of the hundred counties.

Mr. Davis carried his home county of Loudoun by 986 votes. There were 2,250 votes cast, Mr. Davis received 1,618 and Mr. Swanson 622.

Leesburg, by 3,145. The total there was Davis 1,456, Swanson 1,679.

Senator Swanson carried his home county of Pittsylvania by no less than 4,000 votes. The vote in Danville was 2,280; Davis 622.

Norfolk city gave Swanson 4,950; Davis 2,812. Portsmouth gave

Swanson 2,485; Davis 683.

Richmond city developed a closer fight than either side expected. The vote was 2,250 to 1,700.

Indications are that Lancaster and Richmond counties will be in the Davis column by small majorities and possibly Rockbridge will go for the former governor.

Representative Joseph T. Deal is renominated for Congress in the second, or Norfolk district, by probably 8,000 majority over Assistant Attorney General J. D. Hank Jr., the Times Dispatch returns showed.

In the Sixth district, where the only other contest over a seat in the House was waged, the vote appears to be very close between Representative James P. Woods and Judge Clifton A. Woodrum. Late bulletins

state Woodrum has 700 majority in the district.

Scattering returns from rural dis-

tricts show that the supporters of Swanson have stood solidly behind him. In no instance has Davis led the incumbent.

Complete returns from Hampton City and Elizabeth City county give Swanson a majority of 1,270. The same was true from other sections of the state and supporters of the incumbent are claiming a landslide for their man.

Swanson registered majorities as follows:

Petersburg 1,185; Alexandria 1,029; Portsmouth 1,400; Charlottesville 1,092; Charlottesville 641; Clifton Forge 297; Bristol 344; Harrisonburg 226; Buena Vista 119; Matthews county 400; King William county 26; Gloucester county 200.

Early newspaper returns included:

City of Norfolk nineteen out of twenty-five precincts—Swanson 3,

Davis 24; Luke 2,032; Portsmouth complete—Swanson 2,485; Davis 530;

Newport News one precinct missing—Swanson 1,225; Davis 245; Lynchburg and Campbell county, virtually complete—Swanson, approximately 1,000 majority; Danville, one precinct missing and about half of Pittsylvania county (Swanson's home county)—estimated 4,000 majority for Swanson; Fredericksburg complete—Swanson 298; Davis 85; Winchester complete—Swanson 460; Davis 218; Frederick county ten out of twenty-one precincts—Swanson 499; Davis 81; Clarke county, the out of nine precincts—Swanson 186; Davis 42; Hampshire and Elizabeth County complete—Swanson 1,410; Davis 445; Accomac county complete—Swanson 1,355; Davis 786; Matthews county complete—Swanson 445; Davis 47; City of Bristol—Swanson 696; Davis 47; Petersburg complete—Swanson 1,136 out of 1,784 votes cast. Scattering returns from fourth district give Swanson big majority.

The Bristol Herald Courier estimated Swanson would have a lead of five to one in the Ninth district.

On the Ninth district, with its

much larger vote will exceed that given in the senator in the "Fighting Fifth."

—Miss Louise Geoghegan has returned from Greensboro to spend August with her parents.

—Miss Gladys Jackson left this morning for Stuart, where she will spend several days visiting friends.

The

EARLY RETURNS FROM THE STATE

RICHMOND, Va., Aug. 1.—Newspaper returns indicate a close race in Sixth district between Representative Woods and C. A. Woodrum. Lynchburg complete gave Woodrum 1,447, Woods 1,380. Campbell county two precincts missing showed Woods 1,000 majority. Bedford gave Woods 1,000, Davis 950. Woodrum lead in Roanoke City with Woods leading in county.

In First district early returns showed Representative Deal leading Assistant District Attorney Hank. Nineteen out of 28 precincts in city of Norfolk gave Deal 8,758, Hank 1,782; city of Portsmouth Deal 1,881, Hank 1,588.

HARRISONBURG, Va., Aug. 1.

Returns compiled by the News Record for the seventh district estimated Senator Swanson's lead at 5,000. By counties the newspaper gives Swanson 1,000 majority; Clarke 256; Warren 400; Rockingham 300; Madison 206; Rockbridge 444; Shenandoah 1,140.

PULASKI, Va., Aug. 1. The Southwest Times claim that practically complete returns in Pulaski county give Swanson 946 majority over.

FREDERICKSBURG, Va., Aug. 1.—The primary vote here compiled unofficially by the Fredericksburg Star gives Swanson 298, Davis 83.

NORFOLK, Va., August 1.—Nine out of 26 precincts in the city of Norfolk gave: Swanson 3,487; Davis 2,103 in the senatorial race and 3,716 and Hank 1,788 in the congressional race according to the Virginia Pilot's returns. The city of Portsmouth complete gave Swanson 435 and Davis 1,303.

Matthews county gave Swanson 455 and Davis 470.

ROANOKE, Va., August 1.—Early returns compiled by the Roanoke Times indicate that Judge Clifton A. Woodrum is leading Congressman James P. Woods in Roanoke city while the latter is leading in the county. Senator Claude A. Swanson is sweeping the entire sixth district over ex-Governor Davis.

CHARLESTON, S. C., Aug. 1.—To-bacco markets opened in several South Carolina cities today. At Lake City sales amounted to \$50,590 pounds averaging 21.23 cents per pound. Over 200,000 pounds were sold at Mullins.

Mt. Pleasant county complete—Swanson 445; Davis 47.

Hampton and Elizabeth City complete: Swanson 1,410; Davis 140.

Scattering returns from York and Warwick counties indicate a ratio of at least 7 to 1 for Swanson.

WINCHESTER, Va., August 1.—Returns gathered by the Winchester Star, in ten out of twenty-one precincts in Frederick county, Seventh district, give Swanson 499. Davis 81. Three out of nine Clarke county precincts give Swanson 186, Davis 42, according to the newspaper returns. The city of Winchester gave Swanson 460, Davis 218.

CHARLESTON, S. C., Aug. 1.—To-bacco markets opened in several South Carolina cities today. At Lake City sales amounted to \$50,590 pounds averaging 21.23 cents per pound. Over 200,000 pounds were sold at Mullins.

Mt. Pleasant county complete—Swanson 445; Davis 47.

Scattering returns from York and Warwick counties indicate a ratio of at least 7 to 1 for Swanson.

PETERSBURG, Va., August 1.—Complete returns compiled by the Petersburg Progress from Petersburg give Swanson a majority of 1,186 votes out of 1,784 votes cast, the incumbent carrying every one of the six precincts in the city by a wide margin. Scattering returns from counties in the Fourth district give Swanson a big majority.

BRISTOL, Va., Aug. 1.—Incomplete returns in the Ninth district indicate that the vote is running about five to one in favor of Swanson, according to returns received by the Herald Courier. Bristol gave Swanson 696; Davis 71.

RICHMOND, August 1.—Early and unofficial newspaper returns from the Democratic primary today show Senator Claude A. Swanson leading his opponent, ex-governor Westmoreland Davis, for the senatorial nomination. The Roanoke Times claimed Senator Swanson was sweeping the ninth district and the Newport News Press gave Swanson a lead in the first district which in York and Warwick ran about 7 to 1.

NORFOLK, Va., Aug. 1.—Complete returns from Norfolk city compiled tonight by the Virginia Pilot give Swanson 4,990 and Davis 2,801 in the senatorial race, and Deal 4,982 and Hank 2,704 in the congressional race.

STUART, August 1.—Thirteen of twenty precincts in Patrick give Swanson 750 majority. The remaining precincts will bring Swanson's majority to 1,00 or more. Davis has polled only twenty votes in the precincts heard from. Nothing has been received from Carroll, Grayson and Franklin counties. It is estimated that these counties will give about one thousand each for Swanson.

CHARLOTTE FOR SWANSON BY ABOUT 325 VOTES (Special to The Register.)

DRAKES BRANCH, Va., August 1.—Charlotte county will give Swanson about 325 majority.

SWANSON LEADING IN ARLINGTON COUNTY (Special to The Register.)

WASHINGTON, August 1.—Senator Swanson was leading Davis four to one in Arlington county and had a lead of 1,033 votes in Alexandria, according to unofficial returns received from the Eighth Virginia district tonight by the Washington Post. The vote in Arlington county was given as 325 for Swanson and 23 for Davis. Representative R. Walton Moore of Fairfax was not opposed for re-nomination.

WILL CARRY NINTH BY 15,000 MAJORITY (Special to The Register.)

BRISTOL, Va., August 1.—Incomplete returns from the Ninth district received by the Herald Courier indicate that Swanson will carry the district over Davis by 15,000 to 16,000 votes. Swanson has carried every county in the district on the face of partial returns. Three counties have not been heard from.

A GOLDEN ANNIVERSARY (Special to The Register.)

Mr. and

All Eyes Turn Once More to Harding

His Will Be the Next Move In Coping With the Shopmen's Strike—Will Study Reply of Railway Men.

(By the Associated Press) WASHINGTON, Aug. 2.—A careful study of the railway executives' reply refusing to accept the President's plan for settlement of the shopmen's strike, so far as it dealt with seniority issue, was expected today to precede any further movement by the executive in the strike situation. The government, it is known, views the railroad strike as serious in effect only because of the present stoppage of the coal production.

Dr. Alexander Bell, Phone Inventor, Dies in Canada

(Continued From Page One.)

The newly opened school for deaf mutes. He was then 14 years old, and instantly became the educational sensation of the day. He was appointed a professor in Boston University and opened his instantly successful "School of Vocal Physiology."

But teaching interfered with his inventing, and he soon gave up all but two pupils. One of these was Mabel Hubbard, a wealthy family. She had lost her hearing and speech in an attack of scarlet fever while a baby. It was she who later became Bell's wife.

Bell spent the following three years in night work in a cellar in Salem, Mass. His money-needs were met by Gardner G. Hubbard, his future father-in-law, and Thomas Watson, the owner of the cellar. As he worked he began to see the possibility of conveying speech over an electrically charged wire—the telephone. He used a dead man's ear for a transmitter.

"If I can make a deaf mute talk," Bell had declared, "I can make iron talk."

His first success came while testing his instruments in his new quarters in Boston. Thomas A. Watson, Bell's assistant, had struck a clock spring at one end of the wire, and Bell was electrified to hear the sound in another room. For forty weeks the instrument struggled, as it were, for human speech. Then on March 10, 1876, Watson became almost insane with joy when he heard over the wire Bell's voice saying:

"Mr. Watson, come here. I want you."

On his 29th birthday Bell received his patent. It was at the Centennial exposition held at Philadelphia, two months later, where men of science the world over who had come to examine an study the numerous inventions exhibited, saw Prof. Bell give a practical demonstration of the transmission of the human voice by electricity.

As for Bell himself, he had not planned to attend the Centennial. He was popular and he had received many invitations in view of his speech. At the end of the year he went to his station to see Miss Hubbard off for Philadelphia. There had been talk of his going, but he had put it quietly aside. She believed he was going, when they reached the station she pleaded with him and was refused. As he put her aboard the train and it moved out, leaving him on the platform, she burst out crying. Bell dashed after her and sprang aboard the train, without baggage, ticket or any other trifles.

The next Sunday afternoon Bell and his wife and son were spending the week with Mrs. Burch's home folks at Clarksville, Va.

DANGEROUS!

YOU have noticed how loose sugar, bought in paper bags, spills and wastes. Have you ever noticed how this exposed sugar attracts swarms of flies to your kitchen or pantry?

Do you want to eat this sugar? Wouldn't you much prefer eating clean, pure Franklin Package Sugars? Nothing can harm Franklin, either in your grocer's store or in your home. It is fully protected by sturdy cartons and strong cotton bags. Order by name.

Sixth District Contest Is Close

Shopmen Likely To Accept Plan

(By the Associated Press)
CHICAGO, Aug. 2.—Union chiefs headed by B. M. Jewell, head striking shopmen, met again today to act on the President's proposals for a settlement of the rail strike. Following yesterday's session it was intimated that formal acceptance of the plan would be voted.

Sutherland Is Well In Lead

(By the Associated Press)
CHARLESTON, W. Va., Aug. 2.—Senator Howard Sutherland today kept the lead in the Republican senatorial contest as returns came slowly from yesterday's primary.

Rules Committee Chairman Beaten

PITTSBURG, Kans., Aug. 2.—Representative Campbell, chairman of the Rules Committee in the national House of Representatives, was defeated in yesterday's primary, according to available returns today by W. H. Sproul of Sedan.

Reed Seems To Have Big Lead

(By the Associated Press)
ST. LOUIS, Aug. 2.—With Senator Reed leading Breckinridge Long by about fifteen thousand for the Democratic senatorial nomination, on the basis of returns from 2412 precincts of the 3848 in the State, Reed's campaign manager, Ed. Glenn, told the Associated Press that the senator would win at least 25,000 votes.

BANK MERGER APPROVED

WASHINGTON, D. C., Aug. 2.—The Treasury Department today announced its approval of the consolidation of the Peoples National Bank of Leesburg and the Leesburg-Upperville National Bank of Leesburg, with a capital stock of \$100,000, under the corporate title of the People National Bank of Leesburg.

WASHINGON, Aug. 1.—An un-

commonly grave situation, some people apprehend, tonight confronts the Southern Railway company.

There has been a feeling all along that the Southern might in the end find itself punished for its efforts to avoid conflict with the striking shopmen. Just this state of affairs is precipitated by the action of the executives in rejecting the Harding formula.

Many of the roads have been taking on new men and are therefore in better position to stand a prolongation of the strike. During the last 48 hours the Southern has experienced a great deal of difficulty in observing any sort of schedule.

The road and its men would be free to negotiate a separate settlement, but the question is at all times uppermost whether any such enterprise would hold a promise of success in view of the attitude of the national officers of the shop crafts.

It cannot be said, however, that the action of the executives caused an genera- l office of the Southern. Least

emotion of surprise to run through the night illusion was made in this cor-

respondence to the formal statement promulgated by the labor board on July 8, to the fatalistic attitude of

many of the executives, and to the determination of others to stand out against acceptance of the White

House views concerning seniority. To

understand what has happened one

must go back to that labor board sit-

uation, when it was declared that the shopmen, by their own action, had "automatically abandoned all rights

they possessed under their agree-

ments, and under the decision of this board, including seniority."

This was the utterance of a govern-

mental agency for whose suprem-

acy the president is constantly con-

cerned. It is declared for the execu-

tives that they, together with their

shop foremen and supervisors, repre-

sented to the men who remained loyal

and to the new men who accepted

employment, that they would have

the support, not only of the road of-

ficials but of the federal govern-

ment, as represented and exemplified

in the labor board.

The shopmen have pointed out, too,

that whereas they desire above all

things to range themselves on the

side of law and order, and while they

hold a promise of success in view of

the attitude of the national officers of

the shop crafts.

It cannot be said, however, that the

action of the executives caused an

Lauds United States In Talk With Ex-Gov. Cox and His Party

July 31.—Pope Pius today received the party and regret that he had been unable to satisfy his invited desire to visit the United States. He certainly would have crossed the seas to America had it not been for his election to the Pontificate. Now he must be satisfied with studying that "noble, beloved Nation" at a distance.

Pope Pius expressed profound interest in the welfare and progress of the American people, who, he said, constituted such an important factor in the development of the world. The interview ended by the Pope's departure, postponed by prediction. The press was admitted. Mr. Cox, with a commemorative medal, on one side of which is a bust of the Pope and on the other a shepherd, the medal was inclosed in a red morocco case bearing the Papal arms.

Mr. Cox said he had been greatly impressed by the extraordinary modesty and simplicity of the Pontiff, his keen interest in American affairs.

Washington has a 400-day clock. They wind it every time they catch a senator awake.

Cement Industry Fourth Largest Consumer of Coal

Last year 7,400,000 tons of coal, 2,340,000 barrels of fuel oil, and 3,000,000,000 cubic feet of natural gas were burned in the manufacture of cement in the United States.

Each 376-pound barrel of cement represents an average fuel consumption of 200 pounds of coal, or its equivalent.

Fuel is one of the large necessary cost elements entering into the manufacture of cement.

About 33½ per cent of the cost of manufacturing cement goes for fuel.

Every one knows that coal costs a great deal more than before the war.

In 1921 the coal bill of the cement industry totaled approximately \$40,000,000.

Heat required in cement making is about 3000 degrees Fahrenheit. This is a higher temperature than required in steel making, gold smelting, or almost any other industrial process involving heat.

This intense heat is necessary to fuse the limestone and other materials into what is known as clinker.

Grinding mills pulverize the coal into a fine powder before it is blown into the kiln to be used as fuel.

This grinding costs about \$1 per ton.

This Is the Age of Cement

HOSTAGE FOR HUSBAND

MRS. PEARL BELL AND HER FOUR-YEAR-OLD SON, WHO WERE TAKEN AS HOSTAGES TO INSURE HER HUSBAND'S APPEARANCE ON A DRY LAW VIOLATION CHARGE.

CINCINNATI, Aug. 2.—When dry raiders appeared at the home of Mrs. Pearl Bell, her husband wasn't home. "All right," announced William J. Fritsch, deputy marshal, "we'll take you and your sons (who is four years old) as hostages." Which is what he did, leaving this note for the husband: "To Clarence Bell. We are holding your wife at Loveland, O., until you appear before the mayor of said village of Loveland, to face a charge of

Would Coordinate All State Laws

SAN FRANCISCO, Calif., Aug. 1.—The national conference of commissioners on uniform state laws will open its thirty-second annual meeting here tomorrow to consider and act on proposed statutes for submission to state legislative meetings during the next year. The commissioners will continue their sessions throughout the week.

Among the subjects which tentative drafts of uniform state laws have been drawn are aviation, joint parental guardianship of children, status and protection of illegitimate children, declaratory judgments, extradition of persons charged with crime and commercial acts.

Each one of these subjects has been considered by a special committee of the conference, and model statutes prepared. Commissioners from every state of the nation and from Alaska, Hawaii, Puerto Rico and the Philippine Islands are to be represented at the meetings when action on the proposals will be taken.

During the 31 years of the existence of the conference 311 uniform acts have been adopted in the various states and jurisdictions. Twenty-six uniform acts have been drafted and approved by the conference as covering the subjects which the commissioners believe should be handled by the state legislatures and in such a manner as to give general uniformity throughout the various commonwealths.

The six day session is to be taken up largely with consideration and action on committee reports and draft of bills. The increasing use of airplanes for commercial purposes has caused particular interest to be paid to a proposed uniform law for adoption by states governing the flight and responsibilities of aeronauts. This will be submitted to the commissioners, along with proposed laws governing the obligations of the parents of illegitimate children, and joint guardianship of children, two social subjects of importance.

The object of the conference is stated in its constitution is to "promote uniformity of state laws on all subjects when uniformity is deemed desirable and practicable." It seeks to afford due respects to be absorbed by the national Congress during the past few years.

Officers of the conference say that it tends to provide a way that "The American genius for efficiency may be accomplished in legislation as in business without doing violence to the spirit of American institutions, and this, not through the developments of the powers of the general government to a point where centralization breaks down because of bureaucratic inefficiency, but rather through uniform state action. Uniform state laws should be secured not alone to supplement and reinforce, but also to supersede federal legislation."

Besides acting on proposed uniform state laws submitted by the conference committees, suggestions for additional laws will be received being received with increased favor and considered by the meeting. Its recommendations in legislation are to be made to state legislatures, the commissioners say.

Bobbed Hair's End Predicted

ST. LOUIS, July 31.—A Greek maiden with classically bound hair, long dark hair and flowing robes and sandals-like footwear—such will be the stylish girl who will replace the present "flapper" in the opinion of some of the delegates who are attending the three-day convention of the National Hair Dressers' Association, which opened here today.

The hair dress naturally will have to fit the flowing sleeves of the straight-line frocks, declared one of the delegates, and in accordance with that edict bobbed hair eventually will have to go.

The future must fit fashion and place said another expert, and it's about time that women learn not to wear the same sort all the time. A coiffure becoming for afternoon wear was not always fitted for evening appearance, or some other occasion.

The return of the wig though not so conspicuous as it was centuries ago, by other hair dressers as probable when the curtain fell upon the first day of the women who have

had to leave the stage.

Major Tel. 1251, the telephone number at the conclusion of his address of welcome, a key made from the hair of an auburn-haired American beauty.

Fanny Ward Faces Crisis Next Tuesday

LONDON, Aug. 1.—Fanny Ward, who broke her arm when she fell down the stairs at the Hotel de la Paix in Fourviere, France, on Monday, and returned to London on Tuesday before consulting a surgeon, has suffered a relapse. Sir Alfred Fripp, the king's personal doctor, asserts the crisis will not have passed until next Tuesday.

The doctor estimates that three pints of blood is congested and stagnated in Fanny's arm, and her shoulder is swollen to an enormous size. He fears leakage of the kidneys might set in, which might be a fatal complication.

The actress, whose secret of personal youth has excited the envy and jealousy of women on both sides of the Atlantic, has suffered a relapse. Sir Alfred Fripp, the king's personal doctor, asserts the crisis will not have passed until next Tuesday.

Big Canal Project Being Discussed

CHICAGO, Ill., August 1.—A two-way ship canal between Lakes Superior and Michigan, deep enough for ocean steamers could be built at a reasonable cost and would divert to this route and to Chicago at least seventy-five per cent of the tonnage which now goes through Sault Ste. Marie, according to Dr. Charles Denison, a Chicago engineer.

After surveying the territory through which it was proposed to build such a canal, Mr. Denison said that best place for the cut-off route would be from a point near Au Train, Mich., on Lake Superior to the headwaters of the bay north of Escanaba, Mich., on Lake Michigan.

In this point any ship canal south to the gulf of Mexico would require more water than Lake Michigan could at present supply. As an example, the engineer showed that the Panama canal would be useless without the artificial lake which keeps the canal full of water. And Lake Michigan, he said, is shrinking. Since the government began to keep records, the surface of the lake has been lowered several inches. Half a century ago the lake was said to be slightly less than 620 feet above the surface of the Atlantic ocean, and is now said to be little more than 618 feet above the Atlantic. According to Mr. Denison, the greater part of this shrinkage has taken place during the last 15 years.

"The water necessary for the gulf canal could be obtained from Lake Superior," the engineer said. "Lake Superior is now nearly 21 feet higher than Lake Michigan, but the bottom of Lake Superior goes down many hundred feet below the surface of the Atlantic. In many places in Lake Superior it is not certain that the bottom has been reached even at four or five thousand feet, while Lake Michigan is comparatively shallow, even in its deepest places. The many smaller lakes in territory surrounding Lake Superior are one to eight hundred feet above its surface. They receive much water but have no surface river outlets. It is Mr. Denison's belief that these lakes have underground outlets into Lake Superior.

The supply of water from Lake Superior and the smaller lakes that

Appropriations For The State Library

RICHMOND, Va., Aug. 1.—The General Assembly of Virginia at its 1922 session made two appropriations which will have an especially beneficial effect in enlarging the usefulness of the library board to secure the services of a library organizer, and it enlarged the appropriation for "communication" to such an extent that the library can pay the postage on books sent to borrowers away from Richmond, for at least a part of the year.

It will be the duty of the library organizer to promote the establishment of local public libraries throughout the State and to assist, when called upon, in helping librarians of existing libraries by advising them as to the best methods of making their institutions of greater benefit to their communities. The organizer will do his work through correspondence and by personal visits. When a certain amount of interest is developed in any locality in the establishment of a public library, it will become the duty of the organizer to go into this community and increase its interest to such an extent that the people will be willing to pay a small sum for the support and maintenance of a library.

The State of Virginia has at present a general library law according to the provisions of which the council of any city or town may levy a tax, not exceeding one mill on the dollar, for the establishment and maintenance of a public library. It will be the duty of the library organizer to encourage the people of the various cities and towns of the State to take advantage of this law. So far only a few cities and towns have done this. The law does not extend to the counties. Probably, however, it will be amended in the next session of the General Assembly so as to make it apply to counties also. It has been found in other States that a county may very well become the unit of library organization. In California, for instance nearly every county has a central library building together with branch libraries and library stations. The county library system would correspond in every respect to the same system in a city. The county library idea is rapidly gaining ground and spreading through all sections of the United States. When the Virgin law is so amended as to make possible the establishment of county libraries, it is believed that such libraries will spring up rapidly all over the State.

For many years the Virginia State library has sent books by parcel post and by express to borrowers living away from Richmond. These beneficiaries have been compelled to pay cost of carriage each way. The Library board, in its last budget, requested a sufficient estimated amount for postage to make possible the payment of this expense one way, and in this manner equalized to a certain extent the opportunity of the person living away from Richmond to enjoy the advantages of the library as the citizen in Richmond enjoys it.

Michigan's Dry Navy Is Well Worth Its Cost

DETROIT, Mich., Aug. 1.—Michigan's "prohibition navy," said to have been scoffed at by government officials in Washington, has been vindicated, according to James R. Davis, federal prohibition officer for Michigan and father of the "navy" idea.

The "navy" consists of a fleet of high-powered launches that patrol Detroit river to retain the flow of illicit liquor into Michigan from Ontario. Since it began operation July 1, the fleet has seized and confiscated 11 boats used by alleged rum runners. The boats had an aggregate value of \$22,000 to the government, as they are held in bond. Expenses of the "navy" during the time have been less than \$9,000, including the original investment for the fleet.

Mr. Davis estimates that at public auction the seized boats will bring at least \$15,000 giving the government a clear profit to date of \$6,000. And the "navy" still is in operation, Mr. Davis points out.

The officer says he argued in favor of the fleet for months before the Washington officials who opposed the undertaking on the grounds it would be expensive yielded to his wishes.

SIX DEAD FROM EATING OF PIE

NEW YORK, August 1.—With six persons dead and several more poisoned from eating pie in the Shelburne restaurant, still in a critical condition, the culinary history of the pie sold in the place was said by the district attorney tonight still to be shrouded in mystery.

The crust of several pies taken from the restaurant by the authorities are said to have contained arsenic. After the receipt of a signed statement issued by M. F. Schlessinger, a chemist, that the "gutten test" revealed clear traces of the poison, the board of health rescinded the operating permit of the restaurant.

A baker's helper, the authorities said, was being sought for questioning.

"LOVE WILL FIND WAY," SAYS COUNTESS WHO SPURNED MILLION

COUNT AND COUNTESS ZICHY

BY ALEXANDER HERMAN
ATLANTIC CITY, Aug. 2.—Love finds the ways out of all difficulties. That's what Countess Zichy says.

And she should know—for she, the former Charlotte Demarest, gave up family, wealth on the eve of her marriage to a millionaire just to elope with a young Hungarian nobleman—dashing but penniless!

That was more than two months ago.

"It was pretty hard going—at first," says the countess in her apartment at one of the beach hotels here and whispered into my ear I forgot.

"Sheriff's came and bombarded us everything else."

"It was prettily hard going—at first," says the beautiful wife in New York's exclusive society district and got to live in a one-room suite at a small hotel.

"It was pretty hard getting started making a living."

"But now the going's easy and we are the happiest couple in all the world."

Gets Ready for Work

She started arranging for husband's evening clothes.

"He'll be up soon," she said, "to get dressed for work."

"We tried to get into the movie."

RACE IN SIXTH DISTRICT CLOSE

ROANOKE, Va., August 1.—Judge Clifton A. Woodrum has carried Roanoke city by 1,398 over Congressman J. P. Woods. It is estimated that Roanoke county will go for Woods by 600 including the town of Salem.

Floyd Courthouse was carried by Woods by 253 and Montgomery county, including the city of Radford, went for Woods by \$21.

At ten o'clock Woods headquarters claimed he would pull through when the returns from the outlying districts are in.

WOODRUM CARRIES CITY OF LENINGBURG

LYNCHBURG, Va., August 1.—Lyndours completed gave C. A. Woodrum a majority of 1,417 and J. P. Woods a majority of 1,350. giving Woodrum a majority of 111. For the Senate, Swanson 2,029. Davis 818.

With but two precincts missing J. P. Woods has a majority of 150 in Campbell county.

Radford city gives Woods a majority of 71 and Swanson a majority of 317.

Swanson has swept the Sixth district by a large majority. For the House the Woods-Woodrum result is not yet known with Woods leading slightly on the face of available returns.

ROANOKE, Va., Aug. 2.—With fifteen precincts missing in the Sixth district at an early hour this morning Clifton A. Woodrum is leading Congressman J. P. Woods by 299 votes for the House of Representatives. Neither side here will concede victory until the votes from outlying precincts are in.

WOODRUM IN LEAD

LYNCHBURG, Va., Aug. 1.—With Floyd county and a few precincts in Bedford, Campbell and Roanoke counties missing former Judge Clifton A. Woodrum of Roanoke has a majority in the Sixth district for Congress of 1,417 over Representative James P. Woods according to returns to the Lynchburg News. The remaining precincts are expected to give J. P. Woods the lead, but complete returns will probably be necessary to determine the result. Swanson's majority in Montgomery county was 871 over Davis for the Senate.

TUCKS

Fine tucks are used as the only trimming on many smart gowns for fall. Stitching, applied very close together, is also an approved trimming.

American Hogs To Be Exhibited

CHICAGO, Aug. 1.—Forty-two porcine aristocrats, veritable super-suids with the perkiliest little screw tails and double chins in endearing undulations, will be shipped from New York August 8 to the Centennial Exposition at Rio de Janeiro, Brazil.

This prize herd, which is valued at \$46,000, was selected from among 26 of the most carefully bred Poland-Chinas heard in Illinois. At the exposition they will come in competition with prize swine from all over the world, including the Brazilian descendants of prize-winning Berkshires imported by the Brazilian government years ago.

Brazil is destined to rank second to the United States in swine production, in the opinion of Guy M. Hall, director of the National Institute of Progressive Farming.

"It is important to the world's food supply that Brazil's agrarian expansion should be along progressive lines," said Mr. Hall. "That purebred cattle, hogs and sheep produce more meat and more profit to the grower no longer requires argument. Brazil is alive to the fact, and her livestock industry will be one of the greatest ever known." The Brazilian farmers are more progressive than generally understood in this country. They are large buyers of American farm implements, and in their vast fields make much use of American tractors.

"Pigs is pigs," added Mr. Hall, "but these Illinois Poland-Chinas are of ambassadorial significance."

They know, too, that Parker Pens are never sold except at standard prices established by the maker, and plainly printed on the Parker price-band attached to each pen.

Hence it is little wonder that scores of people are taking advantage of the Vacation Clearance which the Parker Company authorized for the first time in its 30 years' history. Our sales since this sale opened last Saturday have exceeded all previous records, including Christmas.

DIAL CHARGES SALE OF JOBS

WASHINGTON, Aug. 1.—Senator Dial (Dem.), South Carolina, put into the congressional record yesterday a statement charging Joseph W. Tolbert, Republican national committeeman of South Carolina, with selling patronage in that state, stating that he hoped his action would in a measure at least stop some of what he termed, the corruption in regard to public offices.

Senator Dial said he was not concerned with the distribution of na-

tional conventions," but in matters of patronage where he felt his state directly affected by appointment, he had the right to speak. In the statement, filed in the record, Senator Dial charged Mr. Tolbert with participating in the sale of Federal patronage and that in his distribution he had discriminated against colored service men and women.

Senator Dial is fighting the nomination of Mr. Tolbert to be United States marshal for the western district of South Carolina.

Lots of boys are made smart at bottom by being made to smart at bottom.

A Few Parkers Left for Tomorrow

But Only a Few!

**Dont't Let Weather Keep You
Away from This Clean-up**

**\$1
for your
old pen or
pencil
(any make)**

SALE TERMS ARE:

1st—\$1 allowance for your old fountain pen or metal pencil toward the purchase of any Parker Pen in stock at \$2.50 or better.

2nd—All pens in this sale are brand new—in first class condition.

3rd—FREE Signed Accident Policy goes with every pen insuring it for one year against breakage, damage or unsatisfactory service in any way.

4th—Sales ends promptly next Saturday—sooner if all pens are taken. No phone orders filled.

Any Point if You Come Early

There are still a range of attractive styles left—plain, chased and gold mounted. There are still a variety of points—extra fine, fine, medium, broad and stub.

But at these liberal terms the supply can't last. All may be taken before closing time. If they are—the sale will end.

Your best chance is early in the day. Don't forget.

A Personal Demonstration

Of WIZARD POLISH and MOPS as well as BONO Disinfectant, is now being held in our store Miss Parrish. All are invited to come in and have the uses of these to great Household necessities explained.

WIZARD Mop
Keeps floors looking well, because it not only cleans them but gives them a hard, dry, brilliant lustre. The secret of the effectiveness of Wizard Mop is its treatment with Wizard Polish, the cleansing polish. Wizard Mops are built for durability; have adjustable handle; are easily renewed. Prices \$1.50, \$2.00 and \$2.50.

WIZARD Polish

The most scientific polish made for furniture, woodwork and floors. It dries quickly, without stickiness and gives the surface a brilliant and very permanent polish.

Dollar Day**
AUGUST 8th
DANVILLE, VA.
THE DAY YOUR DOLLAR WILL DO DOUBLE DUTY

Scoop's Column

DRAKES BRANCH, August 2.—(Grapevine Wireless)—Our congratulations to Senator Swanson on his magnificent run! He swept the State by the largest majority ever given, and added to the old Commonwealth's grand tribute bequeathed worthily upon the distinguished son of Danville. In the local contest Mr. Talbot came through with a splendid victory, and we felicitate him also, not only upon the victory, but upon carrying off a dignified and safe lead. Marshal made an excellent run with the local support of many friends and admirers; he has much to be proud of and can smile with the rest of us who are also anxious to get back to business. The campaign slogan, "Let The People Rule," is as good today as it was yesterday; in fact it is a pretty good slogan all the time. Those who can be trusted; we might say, are the majority rules just the same. Mr. Tudor, after paying his election bills, will devote his energies to his insurance business. He denies the report that he is going back to South America among the rubber trees and coconuts. "We are sorry the bonfire was not pulled off, as we are anxious to get rid of the infernal. Maybe the celebration will still be held, after stands. We didn't get a breath of gas and light bills yesterday but have no doubt they will show up today; could expect the department to take a chance while the voting was on. Now, don't you glad the argument is over, Junius? SO SAY WE ALL OF US!

Allan Herman says: The Bee composing room knows more about elections than the average man-about-town can digest out in a month.

Bunks Weiford was sadly disappointed last night because he didn't get the auto ride as promised.

Henry Skinner and his megaphone entertained the big crowd in front of The Bee sanctum enduring the evening.

The Tuscarora Club will now discuss golf scores and the tariff on wool, for it is really the trouble with the country.

THE SPENDTHRIFT

A spendthrift dog blew all his coin around the canine tenderloin. Then, wholly broke, he kicked the can. His rabbit's foot he threw away. Growling, "I'm out of luck today; I'm stung at every sort of game; My jinx is certainly to blame!"

Moral—A spendthrift, stripped of pelf, blames everybody but himself!

—oo—

Par Thinking:

First doctor—"What makes you think the patient will die if we don't perform the operation?"

Second doctor—"That isn't the point. This is not a disease, and it should live without the operation; it would establish a precedent!"

—oo—

Ground For Suspicion:

When an unmarried woman of 20 confesses her age we begin to suspect that she is engaged to an alleged millionaire.

—oo—

Joey Doolittle says only those believe in the "survival of the fittest" who consider themselves the fittest.

Babies are still being born on farms but few of them ever learn to be satisfied with country life.

Slow Work.

"Well, how's the uplift coming along?"

"Poorly; so few people want to be uplifted."

—oo—

Lots To Learn.

Daddy came home from the office early one morning and mother had not returned from some friends whom she has been visiting for tea.

Little four-year-old Gwennie ran up to her father's side.

"Daddy," she cried, "I've been wanting to see you for a long time when mother's not near."

"Well, dad," answered father,

"please don't tell mother, because she's an awful dear, but I don't think she knows much about bringing up children."

"What makes you think that?"

"Well," replied Gwennie, "she makes me go to bed when I am wide awake and she makes me get up when I am awfully sleepy."

People who live in glass houses cannot take saxophone lessons, quipped Bunks Weiford.

—oo—

Archie Stoff.

"Those new dashings for the polo will be exposed to terrific expense of snow and ice," said he. "I can't shudder over that in this weather."

The RED HOUSE MYSTERY

by AAMILNE

© 1922 by AAMILNE

BEGIN HERE TODAY

The prospective visit of a ne'er-do-well brother, who had been absent for fifteen years in Australia, was a far from pleasant surprise to Mark and Abbie, proprietors of The Red House. Mark and his constant companion.

MATT CAYLEY remained in The Red House awaiting the arrival of the brother.

ROBERT, with the house-party guests were away playing golf.

When Robert appeared, the parlormaid started by his rough manner to inform her master, Mark was not in the garden and when the maid reported the revolver and then the sound of Cayley pounding on the locked office door and demands to be admitted.

Then the state of affairs was

THOMAS GILLINGHAM, a youthful gentleman adventurer, arrived.

—oo—

"I'll look you up tomorrow at

eight," said he.

—oo—

"My name's Ollingham. I'm sorry, I ought to have told you before. Well, now, Mr. Cayley, we shan't do any good by pretending. Here's a man shot well, somebody shot him."

Cayley shrugged his shoulders

and went to the telephone.

"May I—er—look round a bit?"

Antony nodded toward the open door.

"Oh, do?"

Antony shrugged his shoulders.

"Whoever did this," he said, pointing to the man on the floor.

"Is he dead?"

"Help me," said Cayley simply.

They turned the body on to its back, nursing themselves to look at it. Robert Ablett had been shot between the eyes.

"Did you know him well?" said Antony quietly.

"Hardly at all. Mark is the brother I know best. He hesitated, and then said, "Perhaps I'd better get some water."

There was another door opposite to the locked one, which led, as Antony was to discover for himself, directly into a passage from which opened two more rooms. Cayley stepped into the passage, and opened the door on the right. The door from

the office, through which he had gone, remained closed.

Antony wandered into the bedroom. The window was open, and he looked out at the French windows. Crossing the room and going out by the opposite door, he came into a passage, from which two rooms lead.

The one on the right, into which Cayley went, is less than half the length of the office, a small, square room, which has evidently been used some time or other as

FORMER SENATOR DIES.
BIRMINGHAM, Ala., Aug. 1.—Former United States Senator Frank S. White, of Birmingham, died here to-night of pneumonia at the age of 75. Senator White was a confederate veteran and at the time of his death was president of the educational board of the Southern Baptist convention. The funeral will be held here Thursday.

**WALTON LEADS
IN OKLAHOMA**

OKLAHOMA CITY, Okla., Aug. 1 (Associated Press)—Mayor J. C. Walton, of Oklahoma City, endorsed by the farmer-labor reconstruction league, and organization whose principles are similar to those of the non-partisan league, who was definitely blacklisted by the Ku Klux Klan, swelled into a lead of slightly more than 4,000 votes with 8,870 votes counted in today's Democratic gubernatorial primary. Walton's closest opponent was R. H. Wilson, said to have been the Klan's choice for the nomination. Thomas H. Owen, former supreme court justice was third.

Their slipped onto the Majestic, the largest ship afloat, Saturday and the vessel was 500 miles out before they were discovered hiding in a life boat. Wireless messages tonight said they had been placed under the care of the matron with the standing of regular passengers.

The little girls had often seen taxis and omnibus drive up to the pier and leave handsomely dressed grown-ups went up the same planks of the big ship. They heard them laugh and say good-byes to friends on shore. They had heard how these fine ladies had danced aboard the ship, dined in swell dining rooms and when they got aboard saw the king in London, bathed at Deauville and played at Monte Carlo.

Why should they not try it themselves, they asked.

Tonight they are watching the dances for they have the standing of regular passengers. They will not see the king, however, or bathe at Deauville, for their will be sent back home on the first vessel leaving England after their arrival.

"Sonny" Mullen, the 14-year-old brother of Anna, tonight told how they had planned the trip. Seated on the steps of his tenement dwelling, he said the three of them decided yesterday morning to go abroad and see the world.

"But I was afraid to go," he confessed, as he pulled his flour barrel over his eyes. After he backed out, he said, the girls went aboard and crowded into a life boat that was covered with a tarpaulin.

Katherine was experienced in this. She tried it once before but was discovered in time to be sent back on the ship that accompanied the ship out of the harbor.

Katherine's father was not alarmed today when he was informed that a wireless message told where the girls were.

"Do you suppose she will enjoy the trip?" was all he would say.

Anna's mother was more distressed.

She said:

"When she gets back, I will never let her out of my sight again. She has always been a good girl and was a great help to me." But the girls are having a great time. For once they are in a new society and getting as much publicity out of the trip as any of the others, including Mathilde McCormick, the granddaughter of John D. Rockefeller, who is on the same ship.

**TWO N. Y. GIRLS
STOWAWAYS ON
OUTBOUND BOAT**

NEW YORK, Aug. 1.—Anna Mullon and Katherine Flemming, 13-year-old girls, of New York tenants, tonight are living the life they have dreamed about.

They slipped onto the Majestic, the largest ship afloat, Saturday and the vessel was 500 miles out before they were discovered hiding in a life boat.

Wireless messages tonight said they had been placed under the care of the matron with the standing of regular passengers.

The little girls had often seen taxis and omnibus drive up to the pier and leave handsomely dressed grown-ups went up the same planks of the big ship. They heard them laugh and say good-byes to friends on shore. They had heard how these fine ladies had danced aboard the ship, dined in swell dining rooms and when they got aboard saw the king in London, bathed at Deauville and played at Monte Carlo.

Why should they not try it themselves, they asked.

Tonight they are watching the dances for they have the standing of regular passengers. They will not see the king, however, or bathe at Deauville, for their will be sent back home on the first vessel leaving England after their arrival.

"Sonny" Mullen, the 14-year-old brother of Anna, tonight told how they had planned the trip. Seated on the steps of his tenement dwelling, he said the three of them decided yesterday morning to go abroad and see the world.

"But I was afraid to go," he confessed, as he pulled his flour barrel over his eyes. After he backed out, he said, the girls went aboard and crowded into a life boat that was covered with a tarpaulin.

Katherine was experienced in this. She tried it once before but was discovered in time to be sent back on the ship that accompanied the ship out of the harbor.

Katherine's father was not alarmed today when he was informed that a wireless message told where the girls were.

"Do you suppose she will enjoy the trip?" was all he would say.

Anna's mother was more distressed.

She said:

"When she gets back, I will never let her out of my sight again. She has always been a good girl and was a great help to me." But the girls are having a great time. For once they are in a new society and getting as much publicity out of the trip as any of the others, including Mathilde McCormick, the granddaughter of John D. Rockefeller, who is on the same ship.

General Stillman F. Kneeland, 77, New York lawyer, and his bride,
Ethel Eastman Johnson, widow of the noted artist

Grandmother, Mother and
Daughter All Succumb to
Matrimony Within a
Month.

NEW YORK, Aug. 2.—Lightning
may strike but a single blow in one
place, but romance has struck thrice in
the Johnson-Conkling family in a
single month.

The grand mother became Mrs. Stillman F. Kneeland at a society
wedding in Danbury, Conn., July 20. She was Mrs. Elizabeth Eastman
Johnson, widow of the painter, and
seventy-nine.

The mother became Mrs. William H. Holden, it was learned by The World
yesterday, in a secret wedding
July 1. She had been Mrs. Ethel E. J. Conkling, widow of Alfred Ronalds
Conkling, who committed suicide in
1917.

The daughter became the Baroness
Van Reigersberg Versailles, wife of an
officer in the First Royal Dutch
Hussars, at a fashionable wedding in
Holy Trinity church, Chelsea, London
yesterday. She had been Miss Muriel Lorillard Reynolds Conkling, age
25.

"In-Laws Multiplied."

Thus, as a result of evening ro-
mances, Mrs. Kneeland has a new
husband, a new son-in-law and a
new grandson-in-law. With her
noontday romance Mrs. Holden has a
new stepfather, a new husband and a
new son-in-law. The Baroness
Versailles, through her morning ro-
mance, has a new stepgrandfather, a
new stepfather and a new husband.

The marriage of the then Mrs.
Johnson to Gen. Kneeland came
as a distinct surprise to society. The
General is seventy-seven, strong and
sturdy in appearance, with a lux-
uriant crop of snow-white hair off-
setting his smooth-shaven features.
He has been a well known lawyer in
New York and Brooklyn for half a
century.

Mrs. Johnson's first husband, the

late Eastman Johnson, achieved
fame as a portrait painter. Among
those who sat for him were John
Quincy Adams, Dolly Madison, Daniel
Webster, Mrs. Hamilton Fish,
Grover Cleveland and Benjamin H.
Rosen. Splendid portraits of Cleland
executed by him hang in the city
hall and in the capitol at Albany.

Ethel, the newly married Mrs. Holden,
was the only child of Eastman
Johnson and his wife. In 1896 she
was married to ex-Assemblyman Al-
fred Ronalds Conkling, nephew of
the famous Roioce Conkling. In
1912 she filed suit for separation,
charging abandonment and cruelty.

Asked Father's Removal

Pending the outcome of the suit,
two of their three daughters—Mu-
riel and Olga—applied in the Surro-
gate's court for the removal of their
father as trustee of their fortune. The
girls, together with Vivian, the
youngest, had inherited \$50,000
from their eccentric old uncle, George
Lorillard Reynolds of Tuxedo Park.
Mr. Conkling killed himself the day
the case was to have been heard.

The Mr. Holden Mrs. Conkling
married is known in New York as
having acted for her in various legal
matters. He is said to have been in-
terested in the stage and in motion
pictures.

Where the Holdens were married
could not be learned yesterday, but
The World was advised that they
left for Europe on the Cunard liner
Scythia, July 20. Both expected to
be present at the marriage of Mrs.
Conkling's daughter, Muriel, in Lon-
don, yesterday.

Expert Horsewoman

Muriel's marriage marked the cul-
mination of a romance which began
when the Baron, scion of a wealthy
and distinguished Dutch family, saw
her riding in the steeplechase at Pau
France. He was so enchanted after
horsemanship that he sought an
introduction and in three months led
her to the altar.

The baroness was attended by Miss
Lonny Stone, of New York, Miss
Audrey Sate-Barker of Kingbridge,
and Miss Hermoine Acketton of Park
Lane, London. The Baron's broth-
er was the best man. The ushers in-
cluded Sir Albert Seymour, Capt.
Bruce McLeod, Sidney Astley and
Alphonso Bangs.
